Avg. Customer Satisfaction

4.35

Average Revenue Per User

126.12

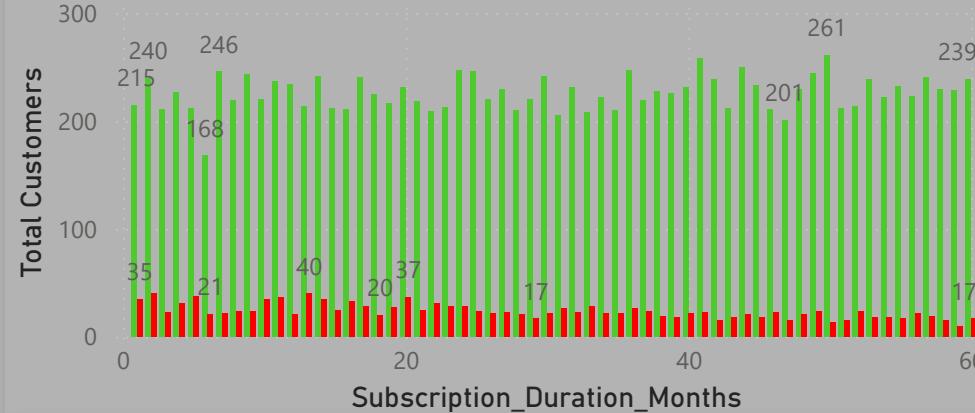

Support Calls

Higher support engagement leads to better retention; proactively contacting customers can prevent churn.

Subscription Months

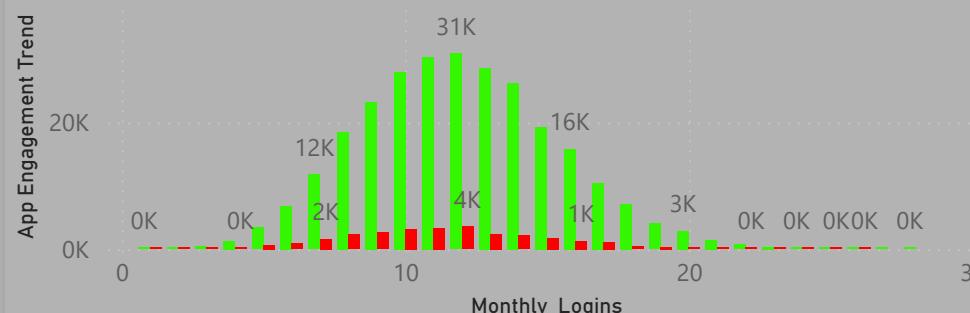

Is\_Churn ● 0 ● 1

Churn risk is highest in early months; offering loyalty rewards during the first quarter can secure long-term stays.

App Engagement & Login Frequency Trends

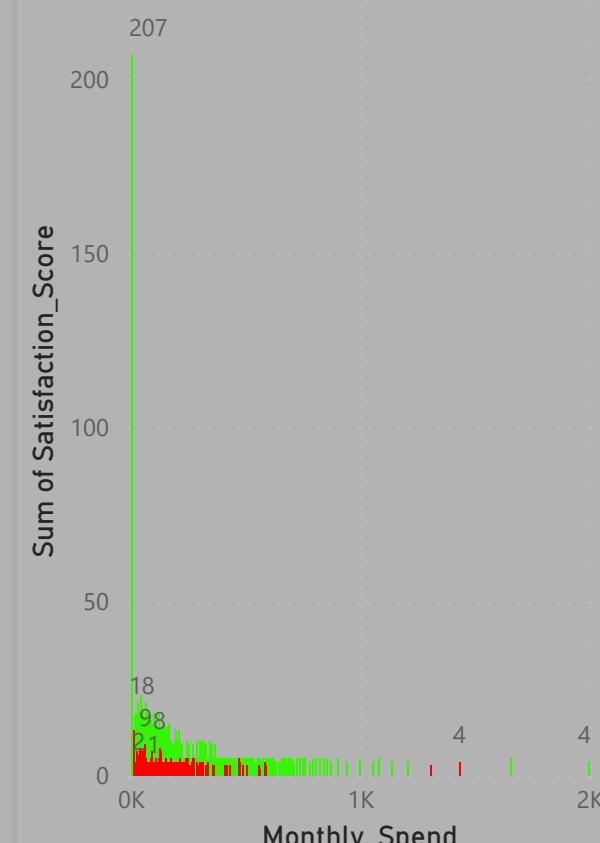

Is\_Churn ● 0 ● 1

Users with 10–15 monthly logins are most loyal; target low-frequency users with re-engagement campaigns.

Spend & Satisfaction

Is\_Churn ● 0 ● 1

High-spending customers are more satisfied (4.35 average); a VIP tier can protect this high-revenue segment.
